August 18, 2026

To all those who contributed to the wonderful week at camp the [redacted] Boys had:

I want to thank everyone, the camp leaders, the donors, the directors and anyone who has a hand in running, organizing and funding Camp Tamarack. My boys, [redacted] who is 7, and [redacted] who is 9, had their first experience at sleep away camp this summer and LOVED IT. I am a single mom of two rambunctious, ADHD brothers who are close in age. It was very important to me they go to an inclusive camp and could handle the boys' high energy and their need to be in a place that understands that. Knowing the boys could be their goofy selves and not get kicked off is a huge weight off a parents' shoulders when looking for things for your child(ren) to do in the summer while you're working. We have had experiences where the boys were kicked out for small infractions with no understanding, which is hard on the child, who feels awful and for the parent who is supposed to be working.

I will say, the boys came home exhausted, running my boys ragged is hard to do. They loved the adventures, they loved the friends, they loved the camp songs (I do too, the penguin song is so cute and the boys loved that there is a Miranda Lambert version of "Little Red Wagon"), they had no complaints about the food (and they are picky), and they loved the leaders immensely.

I have to say I loved the Friday morning pick up, seeing the kids with their buddies and leaders. Both boys had the opportunity to earn an award, which was very rewarding to them. They are still telling everyone about their awards; the sense of pride that gave them is immeasurable. In a world where ADHD is still misunderstood as being "bad" behavior, it was wonderful for them to go somewhere and just be accepted as is and celebrated for their strengths.

Both boys loved the camp out, and the night in the tents. My boys are used to camping, but they were thrilled to be in a tent so thank you for that, lol. They loved the nature aspect, they loved the swing, they loved climbing the wall. Honestly, I think they loved the sense of freedom with no mom around. As a single mom, it's just nice to have a break where you know the kids are safe and having fun. I can't thank everyone enough for the Campership. It was so greatly appreciated. My boys need childcare all summer so getting a break on the cost is absolutely wonderful. I hope this program continues forever and helps parents who need it. The boys were able to attend two weeks of camp due to the campership. Leo chose kayaking and it was immensely memorable for him. He adored going down the river and wants to join the Kayak club in Grande Prairie.

I guess I just really want to reiterate, thank you. It was unbelievably immeasurable the joy you brought to my boys. They have grown, learned and matured from their two weeks with your organization. I can

see it in both boys, they have more understanding about listening, they have become better friends, they sing their camp songs together for everyone and anyone to hear. They have grown close as brothers, as there they had each other's back. They will absolutely both be back next year.

From a single mom who needed a safe, inclusive, fun break for her boys,

Dear Camp Tamarack Campership Supporters,

Thank you so much for giving [redacted] the opportunity to experience Camp Tamarack this summer. This was a very special experience for our family, as [redacted] is the first of our three children to ever attend camp.

To be completely honest, drop-off was very emotional for [redacted]. He did not want me to leave, and he struggled with separation in a way that was completely new for our family. I have never experienced that with any of my children before, so leaving him that day was difficult for me too. We had to trust that he would be okay, and we are so grateful that he had the support and encouragement to stay.
We are incredibly happy that he did. By the end of camp, [redacted] had an amazing time and came home with wonderful memories and stories to share. Even more importantly, he is already asking to go back again! Seeing how much he grew in such a short time and watching him come home excited about his experience meant so much to us.

This opportunity would not have been possible for our family without the Campership Program and the generous people who support it. We are truly grateful to everyone who helps make camp accessible to families and gives children the chance to experience something new, build friendships, gain confidence, and create memories they will carry with them.

Thank you for helping make [redacted] first camp experience such a positive and meaningful one. We are so thankful for the generosity and kindness behind the Campership Program and for everyone at Camp Tamarack who helped make his summer so special.

With sincere gratitude,

[redacted] and Family

Dear Camp Tamarack,

I wanted to sincerely thank you for the funding that made it possible for my 6-year-old daughter to attend camp this year.

As a low income parent having the cost of camp covered took a huge weight off myself as I'm unsure I could've made it happen otherwise and gave her an opportunity that we are incredibly grateful for.

[redacted] loves being around other people, she is a big ball of energy and is really learning the world around her. With never ending curiosity, being able to attend the primary day camp allows her to really explore her adventurous side while being properly supported and not forced out of an comfort zone with having to spend the night. Since she attended last year, coming back has been a non stop conversation for her and she's so proud of the the opportunity to go. This year as she's older than last, the worries and fears of bugs and outdoors and new things have evolved to whether or not she's going to be able to make a friend or feel happy with transitioning activities and environments. I'm really happy to say that she came back each day with nothing but positive comments about everyone there espcially the counselors whom she refers to as her friends now. I'm so proud of her for being herself and having the confidence to be out there making new memories and welcoming new faces in her life. Knowing she had a place where she could participate and be supported meant so much to me as a parent.

Funding like this may seem like financial assistance on paper, but to families like mine it creates opportunities and experiences for children who might otherwise miss out.

Thank you for investing in children like my daughter and for helping make these experiences accessible to families in our community. I truly appreciate the opportunity you gave her and the memories she was able to make. She has included a picture of what she thinks of when she remembers camp.

Thank you, [redacted]

(Sorry it is in an email and not an actual pdf or letter, I can find a way to type it out if that is better)

Dear Parents & Guardians,

We hope your camper had an amazing time at Camp Tamarack and came home with wonderful memories, new friendships, and stories to share!

Dear Campership Committee,

I want to sincerely thank you for giving my son, [redacted], the opportunity to attend camp. Your generosity made it possible for him to take part in an experience that meant so much to both [redacted] and our family.

[redacted] had an amazing time and came home with so many wonderful memories and stories to share. He enjoyed meeting new people, trying different activities, and experiencing everything camp had to offer. It was great to hear the excitement in his voice as he told us about his time there and the things he had learned.

Camp also gave [redacted] the chance to step outside his comfort zone, become more independent, and build confidence in himself. As his mother, it was wonderful to see how proud he was of the things he accomplished and how positively the experience affected him.

Opportunities like this can have such a lasting impact on a young person. [redacted] was able to make new connections, learn more about himself, and create memories that he will carry with him for many years. None of this would have been possible without the kindness and support of your campership program.

Thank you again for believing in [redacted] and for giving him this incredible opportunity. We are truly grateful for your generosity and for the positive difference you have made in his life.

With heartfelt thanks,

[redacted]

Dear Camp Tamarack Team,

I just wanted to say thank you for giving [redacted] the opportunity to attend Camp Tamarack this summer through the Campership Program.

He had a really great time at camp. Since he has been home, he has been telling us about everything he got to do, and it's obvious he had a lot of fun. He especially loved getting to stay overnight, and he is already asking when he can go back.

It was great to see him come home smiling, excited, and proud of himself. Experiences like camp give kids a chance to get outside, make friends, try new things, and build confidence, and we are really thankful he got that opportunity.

I know programs like this only happen because of the generosity of people who choose to support them. Thank you for making it possible for [redacted] to have a week he will remember and talk about for a long time.

We really appreciate everything you do.

Sincerely,

[redacted]

Dear Camp Tamarack Campership Donors and Supporters,

Our family would like to extend our sincere gratitude for your generosity in making it possible for [redacted] to attend Camp Tamarack. Your support gave him an unforgettable experience that we truly appreciate.

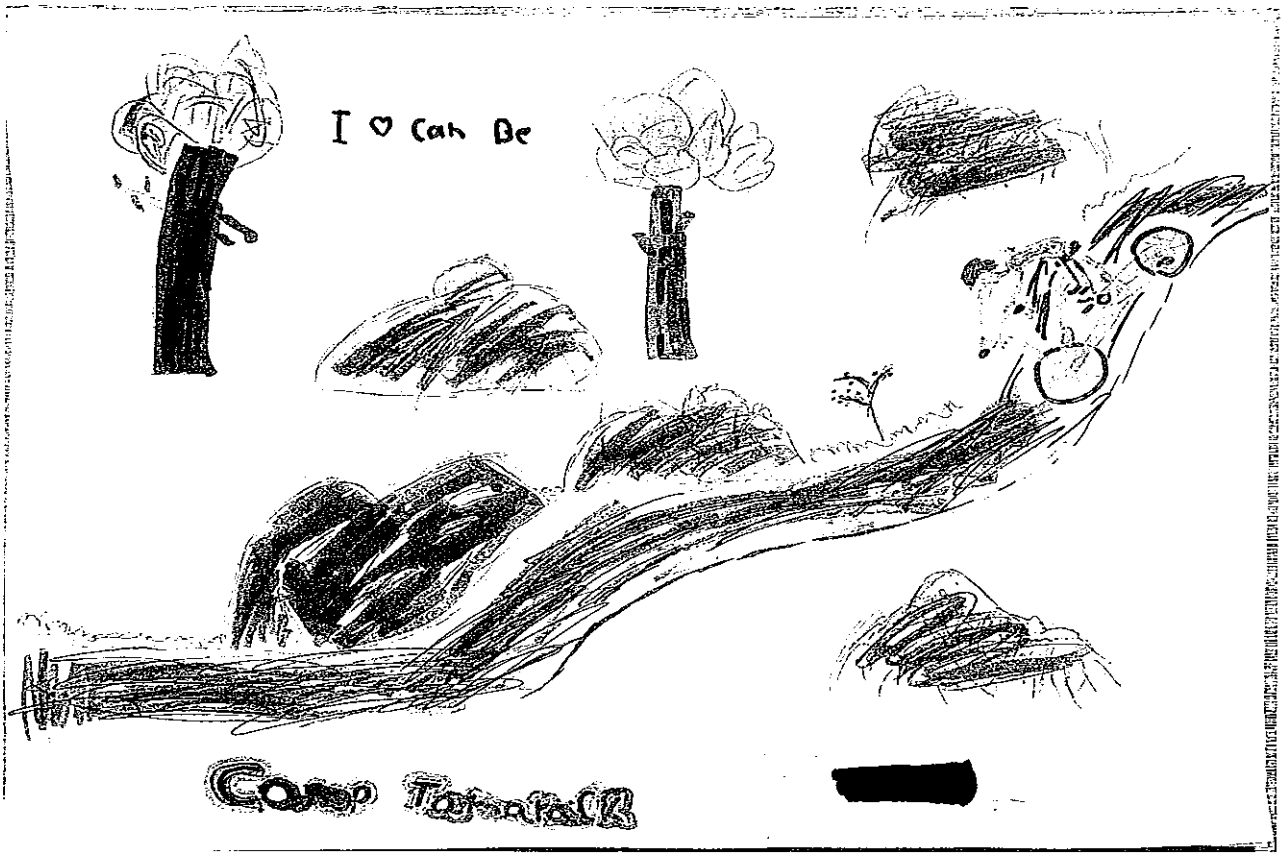

[redacted] had an incredible time at camp. One of his favorite activities was mountain biking, and he couldn't stop talking about how much fun he had on the trails. He also said the food was great, which was a pleasant surprise to hear! Most importantly, he made new friends and came home with so many exciting stories to share. It was wonderful to see how much joy and confidence he brought home with him.

Camp Tamarack gave [redacted] the opportunity to try new things, build friendships, and create lasting memories. He has already told us that he looks forward to going back every year, and that says more than we ever could about the positive impact camp had on him.

Thank you for investing in children and families like ours. Your kindness and generosity make experiences like this possible, and we are truly grateful for the opportunities you provide. We hope you know how much your support means and the lasting difference it makes in the lives of our children.

With heartfelt thanks,

[redacted]

Hi sorry for the late reply it's been busy for us lately!!!! [redacted]

Camp tamarack has turned into an essential part of our children's summer. They look forward to it every year. This summer we were shocked and so proud to learn that [redacted] took more of a leadership role at camp! He is such a shy kid normally and has trouble making friends so to hear that he was getting out of his shell was absolutely fantastic. He also conquered some of his fears of heights by going up the climbing wall and too the top numerous times from what I was told. [redacted] also is very much an introvert especially with her [redacted]. She tends to feel really alienated because of it and fears she won't be able to be included in certain activities especially if a snack or food are involved as often there are not food items she will eat. She did struggle a bit this year with eating at camp but said to me that she wasn't hungry and didn't go hungry which was very reassuring. And she felt included no matter what and not like she was the lone kid out. Quite often she struggles with that. She is already so excited to go back to camp and conquer her fears and go on the big swing again and make more new friends. Between [redacted] severe [redacted] and [redacted] and [redacted] camp each year helps them push them out of their comfort zones but in a comfortable way if that makes sense. [redacted] has even found the courage to join some a school sports team and wants to join even more this year. [redacted] is excited to be doing the same as soon as she is able. I can't even put into proper words what going to camp does for my children but every summer it helps so much with their personal/emotional growth and we could not be more grateful to camp tamarack and all those involved for making this possible and giving our children a chance to attend camp. Without you they would not have this opportunity like other kids their age. Thank you for the memories and we look forward to next year!
